

BRL1: Institutional-Grade Stablecoin Backed by the Brazilian Real

Proof of Reserves Report (PoR)

October 1, 2026

1. Introduction

The purpose of this report is to present, in a clear and transparent manner, the information relating to the reserves that back the BRL1 tokens issued by **BRL1 CONSORTIUM S.A.**

BRL1 is issued by a consortium formed by **MB Mercado Bitcoin, Bitso, Foxbit, and Cainvest**, through a joint structure, with the purpose of offering a stablecoin pegged to the Brazilian Real (BRL) that is transparent, auditable, and aligned with global best practices. The reserves backing BRL1 are composed primarily of highly liquid Brazilian federal government securities (LFTs), held in segregated, unencumbered accounts under the custody of financial institutions regulated in Brazil.

2. Methodology

The information consolidated in this report is obtained directly from the internal system of **Banco XP S.A.**, where the financial resources linked to the issuance of BRL1 are deposited. The custodian account is registered in the name of **BRL1 CONSORTIUM S.A.**, and the bank balances and financial investments are reconciled internally. The data reflect the exact balance of the reserves as of the reference date, compared with the total number of tokens issued and in circulation on the public blockchain.

BRL1 CONSORTIUM S.A. is responsible for the integrity, accuracy, and validity of the information contained in this Proof of Reserves Report, with a reference date of **October 1, 2026**. This report was prepared internally by the BRL1 team and approved by the Consortium's Board of Directors, representing the founding partners. Although this edition has not yet been audited by an independent entity, BRL1 reaffirms its commitment to transparency, data accuracy, and accountability. The transition to reports assured by independent audit is part of the project's institutional development plan.

3. Reserve Composition

Component	Value (BRL)	% of Reserves
Bank Account Balance	R$ 628,835	3.25%
LFTs	R$ 6,253,635	32.31%
Repurchase Agreements (Repos)	R$ 12,471,902	64.44%
TOTAL	**R$ 19,354,372**	**100%**

All assets backing the BRL1 tokens are deposited in a segregated account at Banco XP S.A., in the name of BRL1 CONSORTIUM S.A.

4. Tokens in Circulation

The total number of BRL1 tokens in circulation is public information, recorded on the Polygon blockchain and auditable at any time through the official contract on the public Polygonscan explorer:

https://polygonscan.com/token/0x5C067C80C00eCd2345b05E83A3e758eF799C40B5

The data presented in this report were collected on **October 1, 2026**, at **16:07:25 UTC**, corresponding to block no. **94777137** on the Polygon network, available at: https://polygonscan.com/block/94777137

At that moment, the total number of BRL1 tokens issued and in circulation was exactly **17,381,384.54 BRL1**.

5. BRL1 Collateralization

Based on the data obtained on **October 1, 2026, at 16:07:25 UTC**, in block **94777137** on Polygon, the total number of BRL1 tokens in circulation was **17,381,384.54 BRL1**.

The corresponding reserve, composed of the bank balance, LFTs, and repurchase agreements, totaled **R$ 19,354,372**, resulting in a collateralization ratio of **111.35%**:

Indicator	Value
BRL1 tokens in circulation	17,381,384.54 BRL1
Total value of Reserves	R$ 19,354,372
Collateralization	**111.35%**

6. Conclusion

BRL1 CONSORTIUM S.A. reaffirms its commitment to transparency, security, and institutional-grade governance of the BRL1 stablecoin.

This report reflects the current status of the reserves in relation to the issued tokens, demonstrating that BRL1 is fully backed by highly liquid, low-risk assets, with collateralization above 100%.
